

Climate Governance at the Crossroads: Addressing the Climate Crisis and Shaping a Sustainable Future

The world is facing a climate crisis unprecedented in human history. As the impacts of rising global temperatures become increasingly undeniable, the need for transformative governance and collective action to address this existential threat has never been more urgent.

Climate Governance at the Crossroads is a comprehensive and timely book that offers a critical examination of the current state of climate governance at the national and international levels. It brings together a distinguished group of scholars, policy experts, and practitioners to address the most pressing challenges and opportunities in the pursuit of a sustainable future.

Climate Governance at the Crossroads: Experimenting with a Global Response after Kyoto by Matthew J Hoffmann
