In *Leading Security Experts Explain How They Think*, 20 of the world's leading security experts share their insights on the most critical security issues facing businesses today.

These experts have decades of experience in security leadership, risk management, threat intelligence, incident response, and more. They have seen firsthand the evolution of the security landscape, and they understand the challenges that businesses face in protecting their data, systems, and people.

In this book, these experts share their insights on a wide range of topics, including:

- The most important security trends to watch for in the coming years

- The biggest security challenges facing businesses today
- How to develop a comprehensive security strategy
- How to build a strong security team
- How to respond to security incidents

Leading Security Experts Explain How They Think is a must-read for anyone who is serious about protecting their business from cyber threats. These experts provide invaluable insights that can help you to develop a more effective security strategy and to better protect your data, systems, and people.
